Transferred \$50,000 in general funds from Health and Medical Services to Health Systems Development and Regulation. This is a base transfer from operating expenses to operating expenses. The funds transferred will be used to match federal funds within Office Licensure and Certification. General funds are available in Office of Disease Prevention due to timestudies resulting in more time spent on federally funded activities.

I declare and affirm under the penalties of perjury that this claim has been examined by me, and to the best of my knowledge and belief, is in all things true and correct.

This is a one time transfer from personal services to personal services and operating expenses to operating expenses. The general funds transferred will be used to cover year-end contractual services shortfalls in Health Protection and year-end shortfalls of general fund for the program match in Health Facilities Licensure and Certification. The funds are available due to savings resulting from time studies and fewer vaccines purchased than anticipated. The federal fund and other fund expenditure authority transfers will be used to cover year end shortfalls in Correctional Health, Disease Prevention, Family and Community Health Services, and Tobacco Prevention. Funds were available due to fewer grant expenditures than previously anticipated.

I declare and affirm under the penalties of perjury that this claim has been examined by me, and to the best of my knowledge and belief, is in all things true and correct.
